Summary Accounting policies

"naamloze vennootschap" Ontex Group , Korte Keppestraat 21, 9320 Erembodegem

The accounting policies have been set in accordance with the Royal Decree of April 2019 in execution of the Companies Act. These are applicable for the valuation of the whole set of receivables, liabilities and obligations, of whatever nature, related to Ontex Group NV and the own funds provided to this Company.

The accounting policies are in particular applicable for the determination and adjustment of depreciations, amortizations and provisions for liabilities and charges as well as revaluations.

1.General Accounting Policies

a) Individual valuation of each asset component

Every component of the assets is valued individually. The depreciations, amortizations and revaluations are specific to the related asset components. The provisions for liabilities and charges are valued individually.

b) Prudence, sincerity and good faith

The amortizations, depreciations, valuations and provisions for liabilities and charges meet the requirements of prudence, sincerity and good faith.

The depreciations, amortizations and provisions for liabilities and charges are systematically recorded and don't depend on the result of the year.

c) Acquisition value - nominal value - revaluation

As a general rule, each component of the assets is valued at its acquisition cost and shown in the balance sheet for that amount, minus any depreciation or write-downs.

However :

- The amounts receivable are shown, in principle, at their nominal value.
- The tangible assets as well as the investments and shares reported under the financial assets can be valued according to the cases indicated in article 57 of the abovementioned Royal Decree.

2.Specific Accounting Policies

Formation expenses

These expenses are shown at their acquisition value and are amortized using the straight-line method over 5 years as from the year of acquisition on a prorated daily basis.

The capitalized issuance costs relating to the borrowings are amortized over the term of the loan.

Restructuring costs are recognized in the section "Formation expenses" from the balance sheet and amortized using the straight-line method over a period of 5years on a prorated basis.

Tangible and intangible fixed assets

a) Valuation gross value

Tangible assets are carried at acquisition value and recorded for that amount in the balance sheet less any accumulated depreciation and impairment loss.

The acquisition value represents the acquisition cost or where appropriate, the manufacturing price.

The acquisition cost includes the acquisition price and any directly attributable costs.

The manufacturing price includes in addition to the acquisition cost of the raw materials, consumables and supplies also the production costs.

b) Depreciations

Tangible assets with finite useful lives are depreciated spreading the related cost over the probable useful life of the asset. The tax regulations concerning declining balance depreciations and other methods of accelerated depreciations can be used .

An exceptional depreciation is applied to disposed assets or assets that are no longer useful for the Company's activities in order to align their book value with their likely realization value.

The intangible assets are amortized as follows:

- Research and development costs 20 % straight-line 33% straight-line

-Concessions, patents and licenses	20 % straight-line
-Goodwill	20 % straight-line
-Prepayments	/

The tangible assets are depreciated as follows:

-Land and buildings	5 % straight-line 5 % declining balance
-Additional building costs	5 % straight-line 5 % declining balance
- Installation, machinery and equipment	20 % straight-line - 20 % declining balance - 33 %
straight-line (second hand and small equipment)	
-Furniture and vehicles	20 % straight-line - 20 % declining balance - 25 %
straight-line 33 % straight-line (second hand)	
-Leasing and similar rights	20 % straight-line - 20 % declining balance
-Other tangible assets	3 % straight-line - 33 % straight-line
-Assets under construction	/

The assets are depreciated as from the year of acquisition on a prorata daily basis.

The accounting year ending as per 31 december 2014 represents the Company's first accounting year.

Financial assets

Investments are recorded at their acquisition price or contribution value without supplementary costs.

Receivables and guarantees are recorded at their nominal value.

An impairment loss is accounted for in case of permanent capital loss or decline in value.

Amounts receivable within one year

Amounts receivable are recorded on the balance sheet at their nominal value.

An appropriate write-down will be made if part or all of the payment on the due date is uncertain, or if the recoverable amount on the balance sheet date is lower than the book value.

Cash investments

Cash investments are valued at their nominal value.

Repurchased own shares are valued at the acquisition value as calculated using the LIFO method.

Cash and cash equivalents

Balances held with financial institutions are valued at their nominal value.

Both positive and negative translation differences totalised per currency, for cash and cash equivalents in foreign currency are recorded in the financial results.

Provisions for liabilities and charges

Management determines with prudence and good faith the provisions to be recorded for any pending disputes, charges and risks.

Amounts payable after more than 1 year and within 1 year

Amounts payable are shown in the balance sheet at their nominal value.

Receivables and payables in foreign currency

Receivables and payables are converted using the exchange rate on the last trading day of the accounting year where both the positive and negative translation results totalized per currency are recorded in the income statement.
